

VENTURA

Ventura – The Dependable Rugged Mobile Phone

The Ventura Rugged Mobile Phone is reliable and dependable even in the most difficult environments.

Packed with features that make the Ventura the obvious choice for those people who need an advanced mobile phone that works for them in all situations.

The Ventura is ideal for those in the construction and heavy industries, for people working or living in hostile environments, extreme sports enthusiasts, in fact anyone who needs to keep in touch whatever the conditions.

These are just a few of the reasons why the Ventura should be the Dependable Rugged Phone of choice:

- Dual ACTIVE Sim cards.
- Enabling 2 mobile networks to be used without restarting the device
- Push to Talk – Walkie Talkie options*
- Touch Screen Operation
- Drop and shock resistant to 2 metres
- Water resistant to IP 57 standard

*Ventura WT only

The Ventura in Business and Leisure

The Ventura makes an ideal mobile device for professionals or personal use. The rugged construction ensures a long working life and dependable operation no matter what the conditions are like.

For those in harsh industrial environments such as the construction trades, mining and energy production the Ventura can offer many benefits over the traditional mobile and with the added options of Push-to-Talk operation for Walkie-Talkie mode, single button man down feature and the Dual SIM feature the advantages are obvious.

Equally for those who are involved in outdoor sports, trekking and Gap-Year travel the Ventura not only means your phone will continue to work when you need it but the added features of Dual SIM for home and roaming network operation, a global personal emergency and rescue option (subject to additional 3rd party licence) and the high quality audio, camera and video functions makes this Rugged Mobile Phone the perfect partner.
